From initial presentation made by Purple Frog Communications on our 2011 integrated annual report, we could see that significant effort was made by them on the design and value add elements, and their costing was very competitive.

Through the entire production process; finalising the design, layout, typesetting, proofing rounds, etc. – the Purple Frog team ensured that we were meeting the agreed deadlines, made recommendations on structure and flow of the report, constantly strived to keep to the consistency and high standards we expected, and then some.

We would gladly recommend their services and expertise.

Yours sincerely,

Willem Moolman
Financial Director
